In the previous release of DataWarrior I was able copy and paste from ChemBioDraw 14 into the structure editor window. Now when I try to do that it immediately crashes/closes DW. I have the 64 bit version of DW and java.

Update: if from within ChemBioDraw Ultra 14.0 I "Copy As->SMILES" and then paste to DW, it pastes just fine and does not crash. It's only when I do a normal copy-paste, either Ctrl+C or right click and select copy that it crashes DW.
