Subject: Re: Problem with importing macros from previous versions
Posted by thomas on Sat, 20 Aug 2016 22:54:05 GMT

Thank you for sending me some test macros. Sadly, I found that the 'Add Row Numbers' task contained
a bug that caused a null-pointer-exception if no category column was used. I considered this serious
enough to immediately release a bugfix, which I just have done (v4.4.2).

Thank you for helping fixing this issue by telling me and sending the macros.

Kind regards,

Thomas
