Dear Thomas,

First of all datawarrior is a one of best integrated tool i ever used. Changes in latest version are really interesting like fuzzy score, permeability property . i am not able to calculate permeability score as it is complaining issue with marvin plugin. please suggest me work around for this problem.

please provide me if you have any working example with Fuzzy score calculation.

OS : Linux and Windows 64 bit

Thank you and your help will be highly appreciated.

with best regards,
vamsi
