
Subject: Issues with reading CSV-files

I downloaded a CSV-file from the ChEMBL website (see attachments). If I open it, DataWarrior falsely recognizes SMILES in the "ChEMBL ID" and "Type" column. Also the header is erroneous. For example it displays the title "Type" as "T_y_p_e".

I already downloaded the bugfix you posted on another thread on the 17.1.2019.
