Subject: Reading in JSON files.... Posted by hungerfordwm on Mon, 11 Mar 2019 13:36:51 GMT View Forum Message <> Reply to Message

I'm currently mining some information from the net and reading the data through script controls. I was wondering if anyone knows if Data Warrior has this functionality, something similar to where I could read JSON files directly into Data Warrior, or if maybe someone has a KNIME node/workflow that would enable me to read in JSON files into DataWarrior.
