Is it possible to color a single cell of a column?

## Subject: Re: Coloring a single cell <br> Posted by thomas on Tue, 17 Dec 2019 20:48:32 GMT <br> View Forum Message <> Reply to Message

not in a straight forward way, but you could have another column (potentially hidden) that contains a value in the respective row and use that column for the background coloring of the other column.
