Hi Ed,

I tried with version 521 and with the current dev version using the following data, but couldn't reproduce the issue.

When changing an entry in one of the vendor columns, I could always recalculate. When I used a 2D-view with the calculated value on an axis, this also reflected the change. Does the dialog open in your case?

Thomas

vendor_1 vendor_2 Calculated Column

1 0 1; NaN

2 1 2; 1

0 2 NaN; 2

1 3 1; 3

2 4 2; 4
