If you have a ChemAxon license, you can now download an official capka.jar file from the ChemAxon website, which was built for DataWarrior using just the classes needed and being compatible with Java 8 that DataWarrior uses. Of course, you also need to have the proper license file at the right location in your file system. The download link is:

<https://chemaxon.com/download?dl=%2Fdata%2Fdownload%2Fcalculators%2F.datawarrior%2Fcapka.jar>
