Subject: importing data to the existing datasheet from txt or xls
Posted by AlexM on Wed, 27 Apr 2016 12:07:15 GMT

Dear Openmolecules Team,
Thank you for the great software.

I'd like to append data from the text or xls file to the column within existing datasheet. Using
Ctrl+C/Ctrl+V creates the new datasheet, which is not what I want.

Best wishes,
Alex
