Hi,

I was writing this message to report a display issue for zwitterion structures.

For instance,

O=C([O-])c1cc(NS(=O)(=O)c2ccccc2Cl)cnc1N1CCC[C@H](C[NH+]2CCC C2)C1  
This structure contains both N+ and O-, and the net charge is 0.

However this structure was displayed as attachments 'strcuturedisplay.jpg',

unlike what it could be correctly in attachment 'strcuturedisplay.jpg'

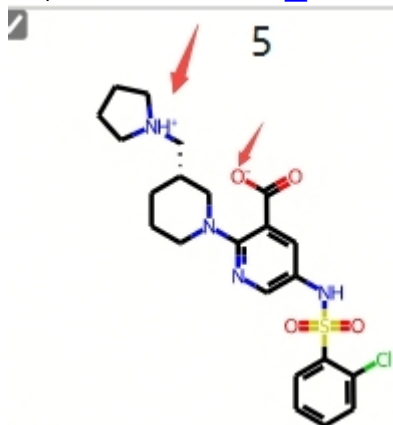

I am not sure its a bug or I could set any function to show the strcuture correctly.  
Thank you for your time and I am looking forward to hearing from you soon.

Best regards,  
Sally
