Dear ksong,

picture a1.png depicts the notification I equally observed for DW 6.1.0 in an instance of Linux
Debian 13/trixie. Following the directions, i.e. the de-installation of this built and pristine
installation of with the new installer (md5sum 8141e32024a61ca144e238f3d00ca2d6 for file
`datawarrior610.tar.gz`) provided the new DW 6.1.0 with amended functionality (e.g., violin plots
now among the preferred chart types of 2D plots). If you read `v06.01.00 (build 23-Jan-2024)`
(i.e., now again with a time stamp) on the splash screen, just as in your screen photo a2.png, you
have the currently most recent version of the program installed.

Best regards,

Norwid
