Subject: Re: Data Warrior V6.1.0 does not start after the first installation Posted by thomas on Thu, 16 Jan 2025 09:56:23 GMT View Forum Message <> Reply to Message

Hi Tevin,

I am afraid, I cannot contribute much to the solution of this. I have no experience with Sentinel One myself, but got from multiple users the input that the problem was gone after whitelisting. Whether this involved multiple steps or just adding the DataWarrior.exe path to a list, I don't know. Possibly, the Java environment within the DataWarrior directory needs to be whitelisted as well.

Thomas
