Subject: Re: Why is clustering limited up to 10000 molecules?
Posted by dataviz on Wed, 22 Mar 2017 10:34:15 GMT

Hello
it is indeed true that to be able to run the cluster function on a dataset larger than 10,000 would be really great considering all the new data available today... This can be done externally but Warrior is so convenient that in a future release, it really would be nice...
Sincerely
