yes, with the following data

- create a 2D view with preferred view 'bar chart' with bars representing mean of value
- choose 'CompoundID' and unassigned for the two axes
- set marker color to 'Type'
- separate cases by 'Type'

CompoundID	Type	Value
ID1	A	12
ID1	B	17
ID1	C	13
ID2	A	14
ID2	B	9
ID2	C	11
ID3	A	8
ID3	B	12
ID3	C	15

this should come close, Thomas
