yes, with the following data

- create a 2D view with preferred view 'bar chart' with bars representing mean of value
- choose 'CompoundID' and unassigned for the two axes
- set marker color to 'Type'
- separate cases by 'Type'

CompoundID Type Value

ID1 A 12

ID1 B 17

ID1 C 13

ID2 A 14

ID2 B 9

ID2 C 11

ID3 A 8

ID3 B 12

ID3 C 15

this should come close, Thomas
