Dear Thomas,

When attempting to download the Datawarrior installer for windows, I'm directed to
a Dropbox folder and redirected to 'h-t-t-p-s://uc101fa64a23ff6403e25567425f.dl.dropboxusercont
ent.com/cd/0/get/AdEYCx-XWGG6Z7wLJloVJZDqAwy4aYFpodWntsa99mn
X_FiMwldrPYINVOLlTPFbRh-oR-DhC8DQxGkiXVR2J8n0oMjJOxtk0j2vwsE
y_p9kp-Ax4xZjqWg3noo_5JwHAmA/file?dl=1#'

The window displays following error :
This page can't be displayed

•Make sure the web address 'h-t-t-p-s://uc101fa64a23ff6403e25567425f.dl.dropboxusercont
ent.com' is correct.
•Look for the page with your search engine.
•Refresh the page in a few minutes.

... with a button : Fix connection problems.

It's not a firewall issue, I think, because I can access my personal Dropbox folder
without any problem. Do you have a suggestion ?
p.s. had to camouflage the links

Thank you
