Hello. Pfizer's MPO score seems to be a popular metric these days. Is it possible to add this to the physicochemical properties options in DW? Here is the paper describing it:

<https://pubs.acs.org/doi/10.1021/acscchemneuro.6b00029>

And the link to the worksheet for calculation:

https://pubs.acs.org/doi/media/10.1021/acscchemneuro.6b00029/cn6b00029_weo_001.docx

Thanks for making great cheminformatics software possible for us!
