Subject: Version 5.0 does not open file with 2 columns of SMILES Posted by edgriffen on Mon, 21 Oct 2019 12:31:22 GMT

View Forum Message <> Reply to Message

Using DW version 5, on Mac running Mojave 10.14.5, Java updated to 8 Update 231.

this file is not read:

name SMILES1 SMILES2 line1 c1cccc1F

line2 n1ccccc1 n1ccccc1F line3 [nH]1cccc1 [nH]1cccc1C

attached as test3.txt

Just hangs at 'processing records', then fails to finnish cleaning up.

Just reading the 1st and 2nd or 1st and 3rd columns, both read in fine.

Files attached as test4.txt and test5.txt

Double structure column reads fine on DQ v 4.7.2 - if only I could go back....

Thanks,

Ed

thanks for the report. This is fixed in the update due later this year.

You may download a not yet finished early access version on openmolecules.org/datawarrior/dw500x.zip.

This archive contains a few files, which (on the Macintosh) must be copied into /Applications/DataWarrior.app/Contents/Java
