Hi, I am very new to DataWorrior and still find my way round. Unfortnately, I managed to close the Graphical Viewer and cannot find a way to show the Graphical Viewer Panel in the Main Viewing Area again.

Can anybody help?

Cheers

T

on the header line of another view make a right mouse click and select 'New 2D-View'.
The new view will be placed on top the other view, but you may grab it with the mouse and drag it to another location.
