Subject: Feature Request: Load/write gzipped files

Hi!

As far as I am aware there is no way of loading/writing gzipped files.

I think this may be a useful feature, as working with compressed files (.e.g sdf.gz) is quite a common occurrence in my experience.

Thanks!

thanks for the suggestion. I have just built it into the current development version, which you can download as patch from the download page. The link is in the fine-print that gets visible after pressing the 'read and understood' text.
