Hi,

I have a problem editing my graph. In particular, it seems that there are not any options to reduce and/or modify the font in the graph, without reducing the other labels (i.e the 2D structure). Thanks for your help.

Kind regards,
Carmine

Hi Carmine,

I regret to admit that this is true. Text fonts sizes and structure labels cannot be adjusted independently. Thanks for the suggestion. Something to change in the near future...

Thomas
